# WINNIE DAVIS

## Frontend Developer

Abuja, Nigeria (Open to Remote) | Davisbeulah07@gmail.com | +234 813 353 7828
Portfolio: winnie-davis.vercel.app | GitHub: github.com/tamuno777

## PROFESSIONAL SUMMARY

Frontend Developer with 3+ years of experience building scalable, high-performance web applications using React, TypeScript and Next.js. Proven track record delivering production-ready interfaces across edtech, fintech, travel and digital health, from public-facing pages to authenticated dashboards. Experienced working directly with UI/UX designers and product teams to ship responsive, accessible interfaces in fully remote and on-site agile teams. Open to frontend opportunities.

## TECHNICAL SKILLS

**Frontend:** React, Next.js (App Router), TypeScript, Tailwind CSS, Embla Carousel
**Backend & Databases:** Prisma ORM, Supabase, PostgreSQL, REST APIs, Auth.js v5, Server Actions
**Data Analytics:** SQL (intermediate), Python (foundational), Power BI, Excel
**Tools & Platforms:** Git, GitHub, Cloudinary, Vercel, Figma

## PROFESSIONAL EXPERIENCE

**Frontend Developer | Deotechnological** 2024 – Present

- Develop and maintain scalable web applications using React, Next.js, TypeScript and Tailwind CSS.
- Collaborate cross-functionally with designers and backend engineers to deliver user-centric digital solutions.
- Implement responsive UI components and optimise application performance across browsers and devices.
- Contribute to technical documentation and internal knowledge sharing across the development team.

**Frontend Developer (Contract) | Mently** 2025

- Contributed to an EdTech platform connecting mentors and mentees through one-on-one mentorship, courses and virtual classes.
- Built mentor onboarding workflows, profile and expertise management, an AI assistant for program creation, banner customisation and role-based access control.
- Implemented real-time profile updates and improved usability across mentor and learner experiences.
- Collaborated with cross-functional teams to deliver scalable, responsive and accessible interfaces using React, Next.js, TypeScript and REST APIs.

**Frontend Developer | Fairsure** 2024 – 2025

- Developed responsive web interfaces for a payment technology platform.
- Contributed to component library development and cross-browser compatibility improvements.
- Integrated third-party APIs and maintained the codebase using Git version control.
- Reduced page load times by 30% through code refactoring and lazy loading strategies.

**Frontend Developer (Contract) | Resolutio Art** 2023

- Contributed to a Web3 digital art platform focused on artwork authentication and ownership verification using blockchain technology.
- Built responsive interfaces for digital art discovery, authentication workflows and user interactions.
- Integrated wallet-based authentication and supported Web3 user experiences for artists, collectors and platform users.
- Collaborated with designers and backend engineers to deliver secure, user-friendly experiences using React, Next.js and TypeScript.

## KEY PROJECTS

**HealthPulse Nigeria** In Development

Full-stack public health data dashboard built with Next.js, featuring an AI natural language-to-SQL query layer. Designed to make Nigerian public health data accessible and interactive, at the intersection of frontend engineering, data analytics and health informatics.

**ODDfund | Crowdfunding Platform** 2026

GoFundMe-style platform built with Next.js, Auth.js v5, Prisma v7, Supabase PostgreSQL and Cloudinary. Implemented authentication flows, campaign creation, a Paystack donation flow with real-time updates, and media upload pipelines.

**ServiceDey | Service Marketplace** 2024 – Present

Production marketplace platform with artisan onboarding, role-based access, gallery management, subscription banners, cover image upload and real-time profile management. Deployed and used by real users.

## CERTIFICATIONS & COURSES

**Microsoft Data Analyst Associate (PL-300) | Coursera / Microsoft** In Progress
Currently in the Power BI module: data modelling, DAX, report design and publishing.

**SQL for Data Analysis | Udacity** 2026
Querying, aggregations, joins, subqueries and window functions; completed Adventure Works case study.

**Full-Stack Web Development Certificate | Earlycode** 2022
HTML, CSS, JavaScript, React, Node.js, database integration and modern web application development practices.

**Python Programming | Earlycode** 2022
Python programming, including data manipulation, automation and analytical problem-solving.

## PUBLICATION

Lead author, "Why Patients Stop Using Health Apps: A Study on How Design Affects Long-Term Engagement in Chronic Disease Care," Volume 8, Issue 1, pp. 832–839, e-ISSN: 2456-8880.
