WINNIE DAVIS

TECHNICAL PROJECT COORDINATOR | SOFTWARE DEVELOPMENT BACKGROUND

Abuja, Nigeria | Davisbeulah07@gmail.com | +234 813 353 7828
Portfolio: ms-winnie-davis.vercel.app | GitHub: github.com/Ms-ibiso

PROFESSIONAL SUMMARY

Technical Project Coordinator with 3+ years of experience in software development and hands-on involvement in coordinating digital product delivery. Skilled in translating requirements into actionable tasks, tracking timelines, supporting testing and documentation, and keeping developers, designers and stakeholders aligned. Brings practical knowledge of React, Next.js, TypeScript, REST APIs and SQL, enabling clear communication with technical teams and informed project decisions.

CORE SKILLS

Project Coordination: Requirements gathering, task breakdown, sprint and timeline tracking, stakeholder communication, progress reporting

Documentation & Quality: Technical documentation, acceptance criteria, manual testing, bug reporting, QA follow-up

Tools: Trello, Asana, Notion, ClickUp, Slack, Zoom, Google Meet, Google Workspace, Microsoft Office, Figma, GitHub

Software & Data: React, Next.js, TypeScript, Tailwind CSS, REST APIs, Git, SQL, Python (foundational), Power BI

PROFESSIONAL EXPERIENCE

Deotechnological | Remote

Project Coordinator March 2026 – Present

Product: ServiceDey – service marketplace for customers and artisans

- Coordinate product delivery with backend developers, designers and stakeholders across onboarding, user access, gallery management and subscription features.
- Translate product requirements into clear tasks and acceptance criteria, and follow each item through development, testing and release.
- Align with backend developers on API requirements, data flow and feature timelines to help keep work unblocked.
- Test features before release, document bugs with reproduction steps, and track fixes to closure.
- Maintain technical documentation and provide progress and issue updates to technical and non-technical team members.

Frontend Developer 2024 – Present

- Build and maintain web applications using React, Next.js, TypeScript and Tailwind CSS.
- Work with designers and backend engineers to deliver responsive interfaces and improve performance across browsers and devices.
- Contribute to technical documentation and knowledge sharing within the development team.

Mently

Frontend Developer (Contract) 2025

- Contributed to an EdTech platform connecting mentors and mentees through one-to-one mentorship, courses and virtual classes.
- Built mentor onboarding workflows, profile and expertise management, banner customisation and role-based access control using React, Next.js, TypeScript and REST APIs.
- Implemented real-time profile updates and improved usability across mentor and learner experiences.

Fairsure

Frontend Developer 2024 – 2025

- Developed responsive interfaces for a payment technology platform and contributed to component library development.
- Integrated third-party APIs, improved cross-browser compatibility and maintained the codebase using Git.
- Reduced page load times by 30% through code refactoring and lazy loading.

PROFESSIONAL EXPERIENCE — CONTINUED

Resolutio Art

Frontend Developer (Contract) 2023

- Contributed to a Web3 digital art platform focused on artwork authentication and ownership verification using blockchain technology.
- Built responsive interfaces for art discovery and authentication workflows, and integrated wallet-based authentication.
- Worked with designers and backend engineers to deliver secure, user-friendly experiences.

NNPC

HSE / Administrative Intern 2019

- Supported daily activities across the clinical laboratory and Health, Safety and Environment (HSE) departments.
- Assisted with hazard inspections and hazard analysis, and helped prepare reports on findings.
- Maintained documentation and administrative records, ensuring information was accurate and organised.
- Followed established procedures and worked with staff to meet safety and reporting standards.

SELECTED SOFTWARE PROJECTS

ODDfund | Crowdfunding Platform
A crowdfunding platform built with Next.js, Auth.js v5, Prisma, Supabase PostgreSQL and Cloudinary. Includes authentication, campaign creation, Paystack-integrated donations, real-time updates and media upload workflows.

HealthPulse Nigeria | Public Health Data Dashboard
A full-stack public health data dashboard in development using Next.js, with a natural language-to-SQL query layer designed to make Nigerian public health data more accessible and interactive.

ServiceDey | Service Marketplace
A production marketplace with artisan onboarding, role-based access, gallery management, subscription banners, cover image uploads and real-time profile management.

EDUCATION

BSc Microbiology | University of Port Harcourt

CERTIFICATIONS & COURSES

Microsoft Data Analyst Associate (PL-300) | Coursera / Microsoft — In Progress

SQL for Data Analysis | Udacity, 2026

Full-Stack Web Development Certificate | Earlycode, 2022

PUBLICATION

Lead author, “Why Patients Stop Using Health Apps: A Study on How Design Affects Long-Term Engagement in Chronic Disease Care,” Volume 8, Issue 1, pp. 832–839.
